

DA VINCI LEVELS OF STUDENT SUPPORT

Classroom Interventions

- Multiple interventions should be documented at this level to address either academic or behavioral concerns.
- Interventions may include but are not limited to:
 - Individual meetings with student
 - One-on-one instruction
 - Adjusted seat assignment
 - Contact with parent via phone or email
 - Tracking sheets or organizational help
 - See attached sheet for more ideas or go to:
 - pbisworld.com for behavioral interventions

Student Assistance Team (SAT)

- It is very important that contact has already been made with parents prior to filling out an SAT referral.
- Please fill out the SAT referral online at counselorkatie.weebly.com
- Katie will check in with you and schedule an SAT meeting
 - SAT meetings will be held each week at 7:45am on Tuesdays and 3:15pm on Thursdays. (If no specific student meeting is scheduled, students will be identified by academic priority, concerns from teachers and other risk indicators.)
 - The SAT meeting will go forward with or without parents.
- SAT may include but is not limited to:
 - Additional classroom or school level interventions
 - Parent contact from administration
 - Progress monitoring
 - Potential referral for a 504 Plan or a BSC meeting.

Building Screening Committee (BSC)

- A BSC referral can be made **after** an SAT referral has already been made or if there is a medical diagnosis that would lead to a stronger need for specialized instruction as opposed to accommodations.
- To file a BSC referral, please email Katie and she will send you back a fillable BSC form.
- Katie and Roz will review information and determine who needs to attend the BSC meeting.
- The BSC meeting will determine what next steps will be, they may include referral for a 504 plan, referral to evaluation for special education or additional school level interventions.
- If you are unable to attend the BSC meeting, please share your feedback by filling out the Feedback Form at counselorkatie.weebly.com
